In [ ]: Assignment No: 8
        Contents for Theory:
        1. Seaborn Library Basics
        2. Know your Data
        3. Finding patterns of data.
        4. Checking how the price of the ticket (column name: 'fare')
           for each passenger is distributed by plotting a histogram.
```
